

## 多自由度振动平台 Flexible vibratory feeder

多自由度振动平台是高性能、柔性强的给料系统。我们的多自由度振动平台利用振动技术和视觉系统来保证上料速度快、精度高和柔性强的优点。这消除了不同物料更新不同设备的时间和减少占用生产空间。

Flexible vibratory feeder is one high performance of flexible sorting and feeding system. Our vibration technology with vision system makes sure that our flexible vibratory feeder can reach optimized speed, accuracy and flexibility. This eliminates expensive changeover times and frees up valuable production space for other uses.

## 技术规格 Specification

### 尺寸 Dimensions

型号 Model	A	B	C	D
FF-00	35	45	48	300
FF-01	150	200	170	300
FF-02	260	330	240	500

### 电气 Electrical

通信方式 Communication	RS485、TCP/IP、 Ethernet/IP、 Digital I/O
电源 Power	DC 24V 8A
机械手 Software plug-in	FAUNC、Adept、 EPSON、 ABB、 UR

### 其他可选 Options

视觉检测系统 Vision Detection System	FlexVision

LED 背光源 Integrated LED backlight	红、绿、蓝、白、紫外线/red、green、blue、white、infrared
振动槽 vibratory pan	Flat/holes/grooves/nests/various materials
料仓 hopper	As requirements
定位板 Calibration plate	
槽材质 pan material	As requirements

我们的服务包括 Our services are below:

初步分析 Preliminary analysis

技术支持和柔性测试 Technical supporting and feasibility test

布局和节拍优化 Layout and cycle time optimization

设备设计 Equipment design

实时支持和诊断 Real-time assistance and diagnose

培训 Training

试运行期间在线支持 On-site supporting for system Ramp-up

远程支持 Remote supporting
